WICHITA MARKETS.

Receipts of Live Stock at the Union Stock Yards during the past 24 hours: 26 Cattle, 440 Hogs. Shipments: 16

The fresh receipts of cattle today were very small. There were some cattle sold on the market today that have been held over during the past few days' duliness. Some of these, it was claimed, sold a little higher than the price bid for them yesterday. Notwithstanding this, it was the opinion of nearly all buyers and sellers today that the market was no better than yesterday, and the slow sales today certainly warrant this opinion. The market was no lower, but about steady, and the demand for good stuffs was not satisfied. The offerings were in quality about the same as the poor cattle on sale yesterday.

The receipts of hogs today did not supply the demand. The quality was not as good as the general run yesterday. The market opened 5 to 10 cents higher and closed strong at this advance. Everything on the market sold at the advance. There were but few lights among the offerings, and the buyers who wanted light hogs to supply their eastern houses were disappointed in not getting them. Tops sold for \$4.75; bulks, \$4.60@4.65. The market closed strong, and several more loads of

She was unable to breathe through her nose or articulate distinctly, her breath was always highly offensive, and her general health poor. During a large part of this time she was under treatment, but received no benefit. January 12 1800, I placed her under the treatment of Dr. Terrill. She commenced to improve from the first. Her breathing became easy, natural and free, articulation was restored and the offensive breath disappeared. At the end of three months' treatment she was perfectly cured. Over one year has now elapsed since treatment was discontinued. She is in perfect health and there has been no return of the disease. Ingersoil on California.

In a recent magazine article, Mr. Ernest Ingersoil, the noted writer, says:

"The climate of Southern California in winter closely resembles that of Egypt. Its equability is constant, and its dryness is proverbial. The only complaint made is that it is too nearly perfect. Residents bred in the eastern states confess now and then that a rousing storm would give them a grateful sensation. But this sentiment meets with no favor from the man who has meets with no favor from the man who has just fled from a superfluity of wetness and chilling gales. To him perpetual summer seems perpetual paradise, and to the in-valid dreading the advance of disease, the
